

REMARKS

The application has been amended to insert the required reference to the parent application, for which benefit is claimed, of this new continuing application.

Claims 1-29 have been canceled, and claims 30-38 have been added, all without prejudice to pursuing canceled subject matter in a continuing application, and without disclaimer of any subject matter. Claims 30-38 follow claims 30-38 that were filed in the parent Application No. 09/425,742. Support for these claims appears throughout the application and claims as originally filed.

Present claim 30 differs from parent claim 30 in the following ways. First, it has been made more clear that the compositions used in the method of claim 30 contain at least one compound of the formula I, and the compound or compounds may be present in one form or in a mixture of forms, such as in a racemic mixture. Support for these amendments can be found, among other places, in the specification at page 4, line 13; and page 14, lines 4-6.

Second, it has been made explicit in claim 30 that multiple substituents are chosen independently of one another. Support for this amendment can be found throughout the specification and claims as originally filed, and in U.S. Patent No. 5,411,981, which was explicitly incorporated by reference in the parent application. Specification at page 4, lines 12-20.

Application No.: To Be Assigned
Attorney Docket No. 02481.1641-01

Please grant any extensions of time required to enter this Amendment and
charge any additional required fees to our Deposit Account No. 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
GARRETT & DUNNER, L.L.P.
